REPORT OF THE FIRE CHIEF

I am very pleased that the Town voted to purchase the Class A Pumper. This not only gives the town greater protection, but has lowered the insurance rate substantially as many of you have already noticed.

I am also pleased that the younger men of the Department have been receiving instruction in the care and running of our equipment. They have had fairly regular drills the past year.

Once again our Carnival was a financial success. The members of the Department and Association, as well as many friends, work very hard on this annual fund raising event which benefits all in our community.

The resuscitator was called into use three times this year. It is a comforting thought to know that this life-saving piece of equipment is setting right inside of the fire house door.

I would appreciate parents checking with their children again regarding false alarms and calls with no answers on the red network telephone. These calls still continue to plague the Department. The emergency call to Raymond Dump was definitely a prank-made for the fun of seeing the trucks pass. The dozen or more men who left their work to respond to the call did not appreciate it and there was expense to the town in putting two trucks over the road.

We were saddened again by the loss of one of our faithful firemen — Warren Smith — who passed away on April 24th. Our Association President, Sylvester Sanborn, passed away on January 16, 1962. While his death occurred in 1962 — I cannot write my 1961 report without expressing regret at his passing. He, too, was a faithful member, and our Association President for many years.

Following is a list of the fires occurring in 1961.

Respectfully submitted,

F. CARROLL HESELTON

Fire Chief

AN APPEAL FROM YOUR FOREST FIRE WARDEN

In these days of constantly rising taxes and wages, any unnecessary expense is an added burden on everyone's pocketbook — yours and mine. Forest fires cost money and damage our valuable woodlands. Lightning sets some forest fires, but we have no control of lightning. Children cause many fires. Ninety-eight percent of our forest fires result from human carelessness — our carelessness. This, we — you — and I can do something about.

When we require you to obtain a permit for out-of-doors burning or forbid you to burn on days of high fire danger or set up regulations — hours, etc., governing the use of the town dump we are simply protecting yours and the town's interests.

The ever present threat of forest fires is the concern of all of us; the responsibility for preventing them is ours and the costs of extinguishing are ours. We can do something about this problem, by being aware of and alert to the danger and by cooperating with your warden.

Do the things that are required of you —

1. Follow the warden's directions.
2. Secure the required burning permit.
3. Keep your fires under control.
4. Completely extinguish your fires before leaving them.
5. See that your children are properly cautioned.

Everyone will benefit by it.

Chairman of the School Board

REPORT OF THE SUPERINTENDENT OF SCHOOLS

TO THE CITIZENS OF FREMONT:

It is a pleasure to present this report to the people in the Fremont District. Your school has a superior staff. Mr. Michitson, principal, is well qualified for the position. He is well versed in curriculum development and is interested in each pupil as an individual.

Mrs. deGozzaldi, teaching grades 1 & 2 is a graduate of Lesley College. My visits to her classroom indicate that these children are moving through the basic skills in the correct manner.

Mrs. Kelley, teacher of grades 2 & 3 is a graduate of Wheaton College and has been with us four years. Her material is well organized, interesting and individualized. These pupils are already well along the way at the respective grade levels.

Mrs. Vining is teaching grade 4, and is working in the reading program. She has had much valuable experience and with this and her understanding of public education and children in general, makes for an excellent classroom situation.

Mrs. Smith, teacher of grades 5 & 6 is new with us this year. This classroom is progressing nicely with the skills and enrichment so necessary at this age. Mr. Michitson has given valuable guidance to the entire staff, and in particular our new members.

It might be well to note at this time that your School Board is unquestionably the leader in this forward thinking. Not only do they employ this staff, but they encourage the standards, etc. This looking ahead is also evident with the thinking and planning that is being done as far as the future building needs for Fremont are concerned. Too many building programs are developed because of the immediate need. This, however, is not true in Fremont. The thinking is being done now, before a "crash program" is necessary. More thought, careful scrutiny and an over-all plan will result with this leadership.

Many of the newer developments in education, guidance, grouping, team teaching, are either being considered or practiced in Fremont and Supervisory Union #14. The School Board, PTA Officers, and Administrators of our various schools are meeting with leaders in the various special fields of education each month to better understand these newer developments.

In closing, it is well for people in Fremont to note that the change in Superintendents during September took place in such a manner that it was hardly noticed by the students. This is the way it should be. It was possible only because all of you in Fremont are informed and interested in the entire program at Ellis School.

SCHOOL HEALTH REPORT

To the Superintendent, School Board Members
and Citizens of Fremont:

The accent today on school nursing is in the area of Health Education. Your school nurse is still the one who does heights and weights, tests eyes and ears, applies band-aids when she is available, is the liaison between the school and the home for every physical and emotional need of the child, arranges clinics, and is on call for every one of the duties expected of her. (According to a study on the graduate level at Boston University, these duties number one hundred and thirty-one.)

However, in addition to these traditional functions which she performs, the scope of school nursing has broadened considerably. Health Education has become the dynamic force, the impetus, the reason for the performance of the school nurse's task. The opportunity for teaching health presents itself in almost every phase. Even formal classroom teaching is possible on a limited basis, although usually the nurse is the source guide for health education materials.

Last year our county was without a state public health nurse; this year one is again available so that we shall resume the pre-school clinics and polio clinics, if the latter are desired by you.

Urine testing was done last year but will probably not be done again on a Union-wide basis. It has been found that the results do not warrant the time and expense involved. Diabetes is a spectacular disease in children and will show up in ways other than in the urine test.

I wish to thank all those involved in the cooperative effort of acquiring and maintaining maximum health for our school children.

Respectfully submitted,

CONSTANCE J. HUSS, R. N.
